

BADAL MAURYA

FRONTEND DEVELOPER

Phone: +91 6307370257 • **Email:** badalmaurya101@gmail.com

Location: Gorakhpur, Uttar Pradesh, India • **GitHub:** github.com/badalmaurya-code • **LinkedIn:** linkedin.com/in/badal-maurya-14948a256

CAREER OBJECTIVE

Enthusiastic and motivated B.Tech Computer Science Engineering student specializing in Frontend Development, with hands-on knowledge of the MERN stack, RESTful APIs, and modern UI design using Tailwind CSS. Passionate about creating responsive, high-performance, and user-friendly web applications. Eager to start my career as a Frontend Developer where I can apply my skills, learn from real-world projects, and contribute to building efficient, scalable applications.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3
Frameworks & Libs: React.js, Node.js, Express.js
UI & Design: Tailwind CSS, Responsive Web Design
Databases & Tools: MongoDB, Git, GitHub (Version Control)

PROJECTS

Groceries E-Commerce Website

React.js

- Developed a fully responsive e-commerce web application utilizing React.js components for dynamic user interaction.
- Implemented crucial user workflows including product catalog listings, a persistent add-to-cart module, and optimized dynamic UI rendering.
- Leveraged Tailwind CSS to establish uniform design tokens, ensuring cross-browser capability and adaptive layouts across all screen dimensions.

Weather Web Application

JavaScript & API Integration

- Engineered an interactive web portal providing real-time local weather tracking by integrating public RESTful API services.
- Built an asynchronous city-based lookup engine that dynamically parses data payloads and refreshes user interfaces without page reloads.
- Strengthened engineering capabilities in asynchronous JavaScript operations, dynamic JSON manipulation, and front-end state management.

Other Engineering Mini Projects

HTML5, Tailwind, JS, React

- Designed and deployed a suite of small-scale web projects targeting real-world problems to cultivate versatile front-end development habits.
- Practiced iterative version control workflows using Git/GitHub while validating application responsiveness and clean code standards.

EXPERIENCE & PRACTICE

Frontend & MERN Stack Developer

2024 — 2025

Self-Learning & Project Development

- Architected full-stack web architectures utilizing MongoDB, Express.js, React.js, and Node.js (MERN Stack).
- Integrated data-driven RESTful APIs while strictly adhering to modern UI/UX design standards and maximizing front-end performance benchmarks.
- Managed project lifecycles, structured repository documentation, and coordinated codebase versions via Git and GitHub.

EDUCATION

Dr. A.P.J. Abdul Kalam Technical University (AKTU)

2025 — Present

Bachelor of Technology (B.Tech) in Computer Science Engineering — 2nd Year (Current Class of 2026)

Board of Technical Education, Uttar Pradesh (BTEUP)

Graduated: 2025

Diploma in Computer Science Engineering (CSE)

- **Academic Evaluation:** 2425 / 3255 Grand Total
- **Performance Metric:** 74.5% Graduation Score (First Division)
